David J. Hanus

Nashville, IN • (219) 616-7362 • davidjhanus@gmail.com • https://davidjhanus.me • github.com/djhanus

Professional Summary:

Experience: 10+ years in full-stack web development, specializing in component-based architecture and modern JavaScript frameworks

Modern Frontend: React, TypeScript, Next.js, Node.js, with expertise in building scalable web applications

DevOps & Deployment: CI/CD pipelines, Docker, Kubernetes, cloud hosting (AWS, Vercel), server management

Full Stack: PHP, MySQL, REST APIs, Git, plus deep experience with WordPress and CMS platforms

Strengths: Clean, accessible code, collaborative mindset, strong documentation, adaptable across teams and modern development workflows

Selected Work Experience:

Technology Advice - Full Stack Engineer (Nashville, TN 2023 - 2025)
- Led 6 WordPress site migrations to Full-Site Editing, improving performance and editorial workflows
- Created 20+ custom Gutenberg blocks and components, building complex blocks with React for high-traffic sites
- Managed CI/CD deployments using GitHub Actions and Argo across Kubernetes environments
- Solved critical security exploit by developing custom 2FA solution, eliminating fraudulent bot activity

Brandography - Senior Web Developer (Minneapolis, MN, 2022 - 2023)
- Built custom WordPress themes from Adobe XD for eCommerce storefront clients
- Collaborated with SEO team on canonical URLs and sitemap optimization contributing to increased traffic
- Mentored junior developers, streamlining workflows and encouraging frontend best practices

Happy Medium - Backend Developer (Des Moines, IA, 2020 - 2022)
- Developed pixel-perfect WordPress themes from Figma, delivering seamless, responsive UI/UX
- Engineered backend features with PHP, AJAX, and REST APIs to extend CMS flexibility
- Managed server-level maintenance and advanced monitoring dashboards, analyzing debug logs and database performance metrics

Blueline Media - Frontend Developer (Bloomington, IN, 2016 - 2020)
- Led frontend development on 20+ client sites with Bootstrap, Sass, and JavaScript for WordPress themes
- Built complex eCommerce solutions with custom checkout flows, Stripe API integrations, and advanced WooCommerce configurations for diverse business types
- Architected and deployed dedicated LAMP server for national organization, handling full migration from server provisioning to high-traffic hosting optimization

Education:

Indiana University (Bloomington, IN) 2003-2008
Bachelor of Fine Arts in Digital Media

Recent Projects:

- Completed LinkedIn Learning courses in React, Next.js, and TypeScript while building experimental web applications to explore modern frontend frameworks and component architecture
- Built startup website using Framer with custom database integrations and animated data visualizations
